

Santre dolomythic home

If you are looking for a place to experience peace and tranquillity, enjoy outdoor activities and savour exquisite culinary delights, you will find it in Sant'Andrea, above the splendid city of Bressanone. This is your Santre dolomythic home, open since May 1, 2022

The project, commissioned by the three brothers Andreas, Christian and Alex Goller, represents their dream come true and embodies their passion for hospitality, love of nature and life's pleasures.

As you can tell by name of the hotel, the amiable hoteliers place particular importance to their land and family: in fact, Santre is a mashup of "San" for Sant'Andrea and "tre" for three brothers.

But what makes this destination special? On one hand is the incomparable location of the structure, located on a sun-kissed hill with a spectacular view of the mountains and the Isarco Valley. On the other hand, the many recreation and relaxation choices, ranging from sports in the countryside together with your hosts, to moments of regeneration in the spa, to excellent food and wine offerings. Nothing is left to chance: attention to quality and detail are a constant in every area.

Case in point: the 62 suites with an enchanting view, furnished with handpicked natural materials and decorated in warm tones. Even in the dining room, your gaze can get lost on the horizon, while your palate is delighted by traditional and innovative dishes based on fresh, regional ingredients.

In addition, some of the unmissable highlights are exclusive wine and cheese tastings and our iconic lounge with cocktail bar. In the wellness area, there is an adults-only space with a Finnish sauna, as well as the location dedicated to events and Aufguss sessions, clay sauna with herbs, Turkish bath, gym, beauty treatments, whirlpool and relaxation room, and an area reserved for children. In the mythic.garden, there is a natural lake where you can cool off on warm summer days. The highlight

is undoubtedly the indoor/outdoor infinity pool, 22 m long with a view on the surrounding peaks.as far as the eye can see

The Gollers feel at their best amid the alpine landscapes. Here, they involve guests in an exciting programme full of activities: hikes, mountain bike tours, climbing in summer, skiing and sledding in winter, and regularly organized excursions accompanied by expert guides. At Santre, everything contributes to making your holiday a truly memorable one.
